Independent Auditors' Report To the Members of Five-Star Business Finance Limited Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Five-Star Business Finance Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2019, the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2019, and profit, other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditors' Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditors' Report

To the Members of Five-Star Business Finance Limited

Page 2 of 12

Key Audit Matters (Continued)

Key Audit Matter	How the matter was addressed in our audit
<p>Adoption of new accounting framework (Ind AS)</p> <p>Effective 1 April 2018, the Company adopted the Ind AS notified by the Ministry of Corporate Affairs with the transition date of 1 April 2017.</p> <p>The following are the major impact areas for the Company upon transition:</p> <ul style="list-style-type: none"> • Classification and measurement of financial assets including assessment of the Business model and financial liabilities, • Measurement of loan losses (expected credit losses) • Accounting for loan fees and borrowing costs • Accounting for employee stock options <p>The migration to the new accounting framework (Ind AS) is a complicated process involving multiple decision points upon transition including regulatory matter related compliances. Ind AS 101, First Time Adoption prescribes choices and exemptions for first time application of Ind AS principles at the transition date.</p> <p>We identified transition date accounting as a key audit matter because of significant degree of management judgment and application on the areas noted above.</p>	<p>– refer note 3 to the financial statements</p> <p>In view of the significance of the matter, we applied the following key audit procedures, among others to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> • Assessing the design, implementation and operating effectiveness of key internal controls over management's evaluation of transition date choices and controls surrounding computation process. • We have also confirmed the approvals of Audit Committee on the key transition date choices and assumptions. • Understood the methodology implemented by management to give impact on the transition and assessed the accuracy of the computations. • Assessed areas of significant estimates and management judgment in line with principles under Ind AS.

Independent Auditors' Report

To the Members of Five-Star Business Finance Limited

Page 3 of 12

Key Audit Matters (Continued)

Key Audit Matter	How the matter was addressed in our audit
Impairment of loans – refer note 6 to the financial statements	
<p>Significant estimate and judgment involved</p> <p>With the applicability of Ind AS 109 credit loss assessment is based on expected credit loss (ECL) model. The Company's impairment allowance is derived from estimates including the historical default, loss ratios etc. Management exercises judgement in determining the quantum of loss based on a range of factors.</p> <p>The determination of impairment loss allowance is inherently judgmental and relies on managements' best estimate due to the following:</p> <ul style="list-style-type: none"> • Segmentation of loans given to the customer • Criteria selected to identify significant increase in credit risk • Increase in data inputs for capturing the historical data to calculate the Probability of Default ('PDs') and Loss Given Default ("LGD") and the completeness and accuracy of that data • Considering the probability weighted scenarios, the forward looking macro-economic factors <p>We identified impairment of loans given to customers as key audit matter because the management judgement involved in estimates has significant impact, considering the size of loan portfolio relative to the balance sheet.</p>	<p>In view of the significance of the matter, we applied the following key audit procedures, among others to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> • Evaluation of the appropriateness of the impairment principles based on the requirements of Ind AS 109. • Assessed the design and implementation and operating effectiveness in respect of computation of impairment allowance process. • As at the year end, evaluated whether the methodology applied by the Company is compliant with the requirements of the relevant accounting standards and confirmed that the calculations are performed in accordance with the approved methodology, including checking mathematical accuracy of the workings. We have engaged our modelling specialist to test the model methodology and reasonableness of assumptions used. <p>Performed test of details, on a sample basis, on underlying data relating to segmentation, staging as at 31 March 2019, the key inputs for computation of ECL.</p>

Information Other than the Standalone Financial Statements and Auditors' Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Independent Auditors' Report

To the Members of Five-Star Business Finance Limited

Page 4 of 12

Information Other than the Standalone Financial Statements and Auditors' Report Thereon

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions as required under applicable laws and regulations.

Management's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act, for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

Independent Auditors' Report

To the Members of Five-Star Business Finance Limited

Page 5 of 12

Auditors' Responsibilities for the Audit of the Standalone Financial Statements (Continued)

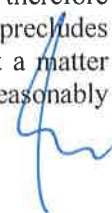

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Independent Auditors' Report

To the Members of Five-Star Business Finance Limited

Page 6 of 12

Other matter

The comparative financial information of the Company for the year ended 31 March 2018 and the transition date opening balance sheet as at 1 April 2017 included in these standalone financial statements, are based on the previously issued statutory financial statements prepared in accordance with the Rule 7 of the Companies (Accounting Standards) Rules, 2014 (as amended) audited by the predecessor auditor whose report for the year ended 31 March 2018 and 31 March 2017 dated 22 May 2018 and 23 May 2017 respectively expressed an unmodified opinion on those standalone financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and standalone statement of cash flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

Independent Auditors' Report

To the Members of Five-Star Business Finance Limited

Page 7 of 12

Report on Other Legal and Regulatory Requirements (Continued)

3. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations as at 31 March 2019 on its financial position in its standalone financial statements - Refer Note 35 to the standalone financial statements;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts. The Company does not have any derivative contracts - Refer Note 6 and 30 to the standalone financial statements;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. The disclosures in the standalone financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2019
4. With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanation given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Page 8 of 12

Annexure A to the Independent Auditors' Report

To the Members of Five-Star Business Finance Limited for the year ended 31 March 2019

(referred to in our report of even date)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme certain fixed assets were physically verified by the management during the year and as explained to us, no material discrepancies were noticed on such verification.
- (c) According to information and explanation given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- (ii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company is primarily engaged in business of lending activities, accordingly, it does not hold any physical inventories. Thus, paragraph 3(ii) of the Order is not applicable.
- (iii) In our opinion and according to the information and explanations given to us, the Company has not granted any loan, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register required under Section 189 of the Act. Accordingly, paragraph 3(iii) of the Order is not applicable.
- (iv) In our opinion and according to the information and explanations given to us, the Company has not granted any loans, made investments or provided any guarantee or security to parties which requires compliance under section 185 and 186 of the Act. Accordingly, paragraph 3(iv) of the Order is not applicable.
- (v) According to the information and explanations given to us and on the basis of our examination of the records of the directives issued by the Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules framed thereunder. Accordingly, the provisions of paragraph 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has not prescribed the maintenance of cost records under section 148(f) of the Act, for any of the services rendered by the Company. Accordingly, paragraph 3(vi) of the Order is not applicable.

Independent Auditors' Report

To the Members of Five-Star Business Finance Limited

Page 9 of 12

Annexure A to the Independent Auditors' Report

To the Members of Five-Star Business Finance Limited for the period ended 31 March 2019

(referred to in our report of even date)

- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and services tax, cess and other material statutory dues have generally been deposited regularly during the year by the Company with the appropriate authorities. As explained to us, the Company did not have dues on account of sales tax, service tax, duty of customs, duty of excise and value added tax.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, goods and services tax, cess and other material statutory dues were in arrears as at 31 March 2019 for a period of more than six months from the date they became payable, except as described in Note 35 to the financial statements.

- (b) According to the information and explanations given to us, there are no dues of income-tax and goods and services tax which have not been deposited with the appropriate authorities on account of dispute except the following:

Name of the statute	Nature of the dues	Amount (In Rs.)	Period to which the amount relates	Forum where the dispute is pending
Income-Tax Act, 1961	Income-tax	673,698	2006-2007	Commissioner of Income-tax (Appeals)

- (viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to its bankers, or to any financial institutions or to debenture holders. The Company did not have any outstanding loans or borrowings to Government during the year.
- (ix) In our opinion and according to the information and explanations given to us, the Company has not raised any money by way of initial public offer or further public offer (including debt instruments). However, the Company has raised term loans during the year. In our opinion and according to the

Independent Auditors' Report

To the Members of Five-Star Business Finance Limited

Page 10 of 12

- information and explanations given to us, the term loan taken by the Company have been applied for the purpose for which they were raised.
- (x) According to the information and explanations given to us, no material fraud by or on the Company by its officers or employees has been noticed or reported during the course of our audit. Also refer Note 48(W) to the standalone financial statements.
- (xi) According to information and explanations given to us and on the basis of our examination of the records of the Company, the Company has paid / provided for managerial remuneration in accordance with the provisions of section 197 read with Schedule V to the Act.
- (xii) According to the information and explanations given to us, the Company is not a nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable
- (xiii) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the Company, the transactions with the related parties are in compliance with sections 177 and 188 of the Companies Act, 2013 where applicable and the details have been disclosed in the standalone financial statements as required by the relevant accounting standards.
- (xiv) According to the information and explanation given to us and on the basis of our examination of the records of the Company, the Company has complied with Section 42 of the Companies Act, 2013 in respect of preferential allotment or private placement of shares during the year and funds has been used for the purposes for which it has been raised. The Company has not issued any fully or partly convertible debentures during the year.
- (xv) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not entered into any non-cash transactions with directors or persons connected with them. Accordingly, paragraph 3(xv) of the Order is not applicable.
- (xvi) According to the information and explanation given to us and on the basis of our examination of the records of the Company, the Company is required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934 and it has obtained certificate of registration from Reserve Bank of India.

Annexure B to the Independent Auditors' Report

To the Members of Five-Star Business Finance Limited for the year ended 31 March 2019

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Five-Star Business Finance Limited ("the Company") as of 31 March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2019, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (the "ICAI").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Independent Auditors' Report

To the Members of Five-Star Business Finance Limited

Page 12 of 12

Auditors' Responsibility (Continued)

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

Particulars	Note	Year ended March 31, 2019	Year ended March 31, 2018
Revenue from operations			
Interest income	23	38,286.54	18,513.27
Dividend income	24	-	12.68
Fee income	25	1,317.08	427.92
Net gain on fair value changes	26	559.86	675.21
Total revenue from operations		40,163.48	19,629.08
Other income	27	120.03	76.55
Total Income		40,283.51	19,705.63
Expenses			
Finance costs	28	7,285.60	5,471.27
Fees expenses	29	94.77	84.87
Impairment / write off on financial instruments	30	700.54	903.00
Employee benefits expenses	31	7,478.89	3,918.51
Depreciation and amortization	11 & 12	419.42	259.31
Other expenses	32	2,505.58	1,503.21
Total Expenses		18,484.80	12,140.17
Profit before tax		21,798.71	7,565.46
Tax expense			
Current tax	33 A	6,954.97	2,404.37
Deferred tax (net)	37	(785.94)	(263.06)
		6,169.03	2,141.31
Profit for the period		15,629.68	5,424.15
Other comprehensive income			
Items that will not be reclassified to profit or loss			
Re-measurements of the defined benefit plan		50.09	40.79
Income tax relating to items that will not be reclassified to profit or loss		(14.59)	(11.88)
Net other comprehensive income not to be reclassified subsequently to profit or loss		35.50	28.91
Other comprehensive income / (deficit) for the year, net of income tax		35.50	28.91
Total comprehensive income		15,594.18	5,395.24
Earnings per equity share (face value Rs.10 each)			
Basic (in rupees)		70.16	31.29
Diluted (in rupees)		68.58	30.69

Standalone Statement of Cash Flow for the year ended March 31, 2019

(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

Particulars	Year ended March 31, 2019	Year ended March 31, 2018
A. Cash Flow from Operating Activities		
Net profit before tax	21,798.71	7,565.46
Adjustments for:		
Depreciation and amortization	419.42	259.30
Provision for gratuity	58.51	33.73
Provision for compensated absences	86.33	21.19
Provision for impairment on financial instruments and write-offs	700.54	903.00
Loss on sale/retirement of property, plant and equipment (net)	0.93	8.42
Profit on sale of current investments (net)	(559.86)	(675.21)
Interest income on deposits with banks / others	(1,335.21)	(797.59)
Finance costs	7,285.60	5,471.27
Employee stock option expenses	267.83	214.94
Operating cash flow before working capital changes	28,722.80	13,004.51
Changes in Working Capital:		
<i>Adjustments for (Increase) / Decrease in Operating Assets:</i>		
Loans	(109,584.36)	(50,382.26)
Other non- financial assets	(94.34)	(182.47)
Other financial assets	(59.35)	(52.00)
<i>Adjustments for Increase / (Decrease) in Operating Liabilities:</i>		
Trade payables	60.31	111.87
Other financial liabilities	(1.09)	1.34
Other non financial liabilities	1,156.74	167.14
Net cash (used in) operations	(79,799.29)	(37,331.87)
Finance cost paid	(7,409.26)	(5,410.96)
Direct taxes paid (net)	(6,798.84)	(2,918.89)
Net Cash Used in Operating Activities (A)	(94,007.40)	(45,661.72)
B. Cash Flow from Investing Activities		
Purchase of fixed assets	(585.14)	(448.23)
Proceeds from sale of fixed assets	15.30	4.04
Profit on sale of current investments	559.86	675.21
Interest income on deposits with banks / others	1,380.07	770.69
Movement in bank balances other than cash and cash equivalents	1.09	48.66
Net Cash from Investing Activities (B)	1,371.18	1,050.37
C. Cash Flow from Financing Activities		
Proceeds from issue of equity shares	473.07	490.38
Proceeds from securities premium (net off utilisation)	61,453.65	31,328.84
Expenses towards issue of shares	(501.53)	(440.62)
Fresh borrowings during the year	60,140.00	19,500.00
Repayments of borrowings (including process fee)	(20,579.43)	(11,610.83)
Net Cash from Financing Activities (C)	100,985.76	39,267.77
Net Increase / (Decrease) in Cash and Cash Equivalents [(A) + (B) + (C)]	8,349.54	(5,343.58)
Cash and Cash Equivalents at the beginning of the year	12,643.11	17,986.69
Cash and Cash Equivalents at the end of the year	20,992.65	12,643.11

Five-Star Business Finance Limited
Standalone Statement of Cash Flow for the year ended March 31, 2019 (Continued)
(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

Particulars	As at March 31, 2019	As at March 31, 2018

Five-Star Business Finance Limited

Notes forming part of the standalone financial statements for the year ended March 31, 2019

(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

1 Reporting entity

Five-Star Business Finance Limited ("the Company"), is a public limited company domiciled in India, and incorporated under the provisions of Companies Act 1956. The Company is registered as a non-deposit taking Non-Banking Finance Company (NBFC). The Company has received the Certificate of Registration dated June 9, 2016 in lieu of Certificate of Registration dated December 3, 2002 from the Reserve Bank of India ("RBI") to carry on the business of Non Banking Financial Institution without accepting public deposits ("NBFC-ND"). The Company is primarily engaged in providing small business loans and loans for house renovations / extensions.

2 Basis of preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act'), other relevant provisions of the Act.

The Company's financial statements up to and for the year ended March 31, 2018 were prepared under historical cost convention and accrual basis of accounting, unless otherwise stated and in accordance with generally accepted accounting principles in India (Indian GAAP) and conform to the statutory requirements, circulars, regulations and guidelines issued by Reserve Bank of India (RBI) from time to time. Indian GAAP comprises mandatory Accounting Standards as prescribed under Section 133 of the Act and other relevant provisions of the Act. The Company followed the prudential norms for the income recognition, asset classification and provisioning as prescribed by the RBI for Systemically Important Non-deposit taking Non-Banking Finance Companies (NBFC-ND-SI).

As these are the Company's first financial statements prepared in accordance with Ind AS, Ind AS 101, First-time Adoption of Indian Accounting Standards has been applied. An explanation of how the transition to Ind AS has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note 47.

These financial statements were authorised for issue by the Company's Board of Directors on May 14, 2019.

Details of the Company's accounting policies are disclosed in note 3.

2.2 Presentation of financial statements

The Balance Sheet, the Statement of Profit and Loss, Statement of Changes in Equity, are presented in the format prescribed under Division III of Schedule III as amended from time to time, for Non Banking Financial Companies ("NBFC") that are required to comply with Ind AS. The statement of cash flows has been presented as per the requirements of Ind AS 7 Statement of Cash Flows.

The Company presents its balance sheet in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented separately.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis.

2.3 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs (upto two decimals), unless otherwise indicated.

2.4 Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Financial assets and liabilities	Fair value /Amortised cost, as applicable
Liabilities for equity-settled share-based payment arrangements	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

2.5 Use of estimates and judgements

The preparation of the standalone financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period.

2.5 Use of estimates and judgements (continued)

Accounting estimates could change from period to period. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the standalone financial statements. Information about judgements, estimates and assumptions made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

i) Business model assessment

Classification and measurement of financial assets depends on the results of business model and the solely payments of principal and interest ("SPPI") test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

ii) Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values.

iii) Effective Interest Rate ("EIR") method

The Company's EIR methodology, as explained in Note 3.1(A), recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioral life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behavior and life-cycle of the instruments, as well as expected changes to interest rates and other fee income/ expense that are integral parts of the instrument.

iv) Impairment of financial asset

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's expected credit loss ("ECL") calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include :

- a) The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a life time expected credit loss ("LTECL") basis.
- b) Development of ECL models, including the various formulas and the choice of inputs.
- c) Determination of associations between macroeconomic scenarios and economic inputs, such as gross domestic products, lending interest rates and collateral values, and the effect on probability of default ("PD"), exposure at default ("EAD") and loss given default ("LGD").
- d) Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into ECL models.

2.5 Use of estimates and judgements (continued)

v) Provisions and other contingent liabilities

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the Company's business.

When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the outflow is considered to be probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

These estimates and judgements are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. Management believes that the estimates used in preparation of the standalone financial statements are prudent and reasonable.

vi) Other assumptions and estimation uncertainties

a) Information about critical judgements in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year are included in the following notes:

- i) Measurement of defined benefit obligations: key actuarial assumptions;
- ii) Estimated useful life of property, plant and equipment and intangible assets;
- c) Recognition of deferred taxes.

3 Significant accounting policies

3.1 Revenue Recognition

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Company recognises revenue from contracts with customers based on a five step model as set out in Ind 115 :

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation.

A. Effective Interest Rate ('EIR') Method

Under Ind AS 109, interest income is recorded using the effective interest rate method for all financial instruments measured at amortised cost. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset.

The EIR (and therefore, the amortised cost of the asset) is calculated by taking into account any fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the financial instrument.

3.1 Revenue Recognition (Continued)

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through Interest income in the statement of profit and loss.

The Company calculates interest income by applying EIR to the gross carrying amount of financial assets.

When a financial asset becomes credit impaired and is, therefore, regarded as 'stage 3', the Company continues to calculate interest income on the gross carrying amount of the financial asset.

B. Dividend income

Dividend income is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably. This is generally when the shareholders approve the dividend.

C. Other interest income

Other interest income is recognised on a time proportionate basis.

D. Fee income

Fees income such as legal inspection charges, cheque bounce charges are recognised on point in time basis.

E. Others

Penal interest and other operating income are recognized as income upon certainty of receipt.

Profit / loss on sale of investments is recognised at the time of sale or redemption and is computed based on First in First out method.

All other income is recognized on an accrual basis, when there is no uncertainty in the ultimate realisation / collection.

3.2 Financial instrument - initial recognition

A. Date of recognition

Debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

B. Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at FVTPL, transaction costs are added to, or subtracted from this amount.

C. Measurement categories of financial assets and liabilities

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- i) Amortised cost
- ii) FVOCI
- iii) FVTPL.

Five-Star Business Finance Limited

Notes forming part of the standalone financial statements for the year ended March 31, 2019

(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

3.3 Financial assets and liabilities

A. Financial assets

Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- a) How the performance of the business model and the financial assets held within that business model are evaluated and reported to the Company's key management personnel.
- b) The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.
- c) How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).
- d) The expected frequency, value and timing of sales are also important aspects of the Company's assessment.

SPPI test

As a second step of its classification process, the Company assesses the contractual terms of financial assets to identify whether they meet SPPI test.

Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of financial asset (for example, if there are repayments of principal or amortisation of the premium/ discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Company applies judgement and considers relevant factors such as the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than the minimum exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

Accordingly, financial assets are measured as follows based on the existing business model:

i) Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL.

iii) Investment in subsidiaries

The Company has accounted for its investments in subsidiaries at cost.

3.3 Financial assets and liabilities (Continued)

B. Financial liabilities

i) Initial recognition and measurement

All financial liabilities are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial liability, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition.

ii) Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method.

3.4 Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. The Company did not reclassify any of its financial assets or liabilities in the year ended March 31, 2019 and March 31, 2018 and also as at transition date April 1, 2017.

3.5 Derecognition of financial assets and liabilities

A. Derecognition of financial assets due to substantial modification of terms and conditions

The Company derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised loans are classified as Stage 1 for ECL measurement purposes.

B. Derecognition of financial assets other than due to substantial modification

i) Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the contractual rights to the cash flows from the financial asset expires or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount (measured at the date of derecognition) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in the statement of profit and loss.

ii) Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in the statement of profit and loss.

3.6 Impairment of financial assets

A. Overview of ECL principles

In accordance with Ind AS 109, the Company uses ECL model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL). When estimating LTECLs for undrawn loan commitments, the Company estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down.

Expected credit losses are measured through a loss allowance at an amount equal to:

- i.) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- ii.) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

Both LTECLs and 12 months ECLs are calculated on collective basis.

3.6 Impairment of financial assets (Continued)

Based on the above, the Company categorises its loans into Stage 1, Stage 2 and Stage 3, as described below:

Stage 1:

When loans are first recognised, the Company recognises an allowance based on 12 months ECL. Stage 1 loans includes those loans where there is no significant credit risk observed and also includes facilities where the credit risk has been improved and the loan has been reclassified from stage 2 or stage 3.

Stage 2:

When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the life time ECL. Stage 2 loans also includes facilities where the credit risk has improved and the loan has been reclassified from stage 3.

Stage 3:

Loans considered credit impaired are the loans which are past due for more than 90 days. The Company records an allowance for life time ECL.

B. Calculation of ECLs

The mechanics of ECL calculations are outlined below and the key elements are, as follows:

PD:

Probability of Default ("PD") is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.

EAD:

Exposure at Default ("EAD") is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest.

LGD:

Loss Given Default ("LGD") is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD. The Company has calculated PD, EAD and LGD to determine impairment loss on the portfolio of loans and discounted at an approximation to the EIR. At every reporting date, the above calculated PDs, EAD and LGDs are reviewed and changes in the forward looking estimates are analysed.

The mechanics of the ECL method are summarised below:

Stage 1:

The 12 months ECL is calculated as the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Company calculates the 12 months ECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-months default probabilities are applied to a forecast EAD and multiplied by the expected LGD and discounted by an approximation to the original EIR.

Stage 2:

When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECLs. The mechanics are similar to those explained above, but PDs and LGDs are estimated over the lifetime of the instrument. The expected cash shortfalls are discounted by an approximation to the original EIR.

Stage 3:

For loans considered credit-impaired, the Company recognises the lifetime expected credit losses for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

C. Forward looking information

In its ECL models, the Company relies on a broad range of forward looking macro parameters and estimated the impact on the default at a given point of time.

Five-Star Business Finance Limited

Notes forming part of the standalone financial statements for the year ended March 31, 2019

(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

3.7 Write-offs

Financial assets are written off when the Company has stopped pursuing the recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to impairment on financial instruments in the statement of profit and loss.

3.8 Determination of fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company has taken into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 financial instruments: Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date;

Level 2 financial instruments: Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads; and

Level 3 financial instruments – Those that include one or more unobservable input that is significant to the measurement as whole.

3.9 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognized in profit or loss.

3.10 Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at April 1, 2017, measured as per the previous GAAP, and use that carrying value as the deemed cost of such property, plant and equipment.

iii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

3.10 Property, plant and equipment (Continued)

iv. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the written down value method, and is generally recognised in the statement of profit and loss.

The Company follows estimated useful lives which are given under Part C of the Schedule II of the Companies Act, 2013. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset category	Estimated Useful life
Vehicles	8 years
Furniture and fittings	10 years
Office equipment	5 years
Computers and accessories	3 years
Servers	6 years

Leasehold improvements are depreciated over the remaining period of lease or estimated useful life of the assets, whichever is lower. Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

3.11 Intangible assets

i. Intangible assets

Intangible assets including those acquired by the Company are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

ii. Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2017, measured as per the previous GAAP, and use that carrying value as the deemed cost of such intangible assets.

iv. Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the written down value method, and is included in depreciation and amortisation in Statement of Profit and Loss.

Asset category	Estimated Useful life
Computer softwares	5 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

Impairment of non-financial assets

The Company determines periodically whether there is any indication of impairment of the carrying amount of its non-financial assets. The recoverable amount (higher of net selling price and value in use) is determined for an individual asset, unless the asset does not generate cash inflow that are largely independent of those from other assets or group of assets. The recoverable amounts of such asset are estimated, if any indication exists and impairment loss is recognized wherever the carrying amount of the asset exceeds its recoverable amount. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

3.12 Employee benefits

i. Post-employment benefits

Defined contribution plan

The Company's contribution to provident fund are considered as defined contribution plan and are charged as an expense as they fall due based on the amount of contribution required to be made and when the services are rendered by the employees.

Defined benefit plans

Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'), if any. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

ii. Other long-term employee benefits

Compensated absences

The employees can carry forward a portion of the unutilised accrued compensated absences and utilise it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

iii. Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the year in which the employee renders the related service. The cost of such compensated absences is accounted as under :

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

iv. Stock based compensation

The grant date fair value of equity settled share based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date.

3.13 Provisions, contingent liabilities and contingent assets

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liability

A possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or; present obligation that arises from past events where it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability are disclosed as contingent liability and not provided for.

Contingent asset

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are neither recognised nor disclosed in the financial statements.

3.14 Leases

i. Determining whether an arrangement contains a lease

At inception of an arrangement, it is determined whether the arrangement is or contains a lease. At inception or on reassessment of the arrangement that contains a lease, the payments and other consideration required by such an arrangement are separated into those for the lease and those for other elements on the basis of their relative fair values. If it is concluded for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. The liability is reduced as payments are made and an imputed finance cost on the liability is recognised using the incremental borrowing rate.

ii. Lease payments

Payments made under operating leases are generally recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

3.15 Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

3.15 Income tax (Continued)

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.16 Borrowing cost

Borrowing costs are interest and other costs incurred in connection with the borrowings of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalized as part of the cost of the asset. Other borrowings costs are recognized as an expense in the statement of profit and loss account on an accrual basis using the effective interest method.

3.17 Cash and cash equivalents

Cash and cash equivalents comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.18 Segment reporting- Identification of segments:

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Company's Chief Operating Decision Maker (CODM) to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

3.19 Earnings per share

The Company reports basic and diluted earnings per equity share in accordance with Ind AS 33, Earnings Per Share. Basic earnings per equity share is computed by dividing net profit / loss after tax attributable to the equity share holders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed and disclosed by dividing the net profit/ loss after tax attributable to the equity share holders for the year after giving impact of dilutive potential equity shares for the year by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive.

3.20 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated. Cash flows in foreign currencies are accounted at the actual rates of exchange prevailing at the dates of the transactions.

3.21 Standard Issued But Not Yet Effective

Ministry of Corporate Affairs ("MCA"), through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified the following new and amendments to Ind ASs which the Company has not applied as they are effective from April 1, 2019

Ind AS 116 - Leases

Ind AS 116 Leases was notified on 30 March 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1 April 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e. the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e. the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. Lessor accounting under Ind AS 116 is similar to existing Ind AS 17 accounting.

The Company will adopt Ind AS 116, effective annual reporting period beginning April 1, 2019. The Company will apply the standard to its leases, prospectively, using the modified prospective method with the cumulative effect of initially applying the standard, recognised on the date of initial application (April 1, 2019). Accordingly, the Company will not restate comparative information, instead, the cumulative effect of initially applying this Standard will be recognised as an adjustment to the opening balance of retained earnings as on April 1, 2019. The Company does not expect any significant impact of the amendment on its financial statements.

Ind AS 12 Income taxes (amendments relating to income tax consequences of dividend and uncertainty over income tax treatments)

The amendment relating to income tax consequences of dividend clarify that an Company shall recognise the income tax consequences of dividends in the statement of profit or loss, other comprehensive income or equity according to where the Company originally recognised those past transactions or events. The Company does not expect any impact from this pronouncement. It is relevant to note that the amendment does not amend situations where the Company pays a tax on dividend which is effectively a portion of dividends paid to taxation authorities on behalf of shareholders. Such amount paid or payable to taxation authorities continues to be charged to equity as part of dividend, in accordance with Ind AS 12.

The amendment to Appendix C of Ind AS 12 specifies that the amendment is to be applied to the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. It outlines the following: (1) the Company has to use judgement, to determine whether each tax treatment should be considered separately or whether some can be considered together. The decision should be based on the approach which provides better predictions of the resolution of the uncertainty (2) the Company is to assume that the taxation authority will have full knowledge of all relevant information while examining any amount (3) Company has to consider the probability of the relevant taxation authority accepting the tax treatment and the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates would depend upon the probability. The Company does not expect any significant impact of the amendment on its financial statements.

Ind AS 109 – Prepayment features with negative compensation

The amendments relate to the existing requirements in Ind AS 109 regarding termination rights in order to allow measurement at amortised cost (or, depending on the business model, at fair value through other comprehensive income) even in the case of negative compensation payments. The Company does not expect this amendment to have any impact on its financial statements.

Ind AS 19 – Plan amendment, curtailment or settlement

The amendments clarify that if a plan amendment, curtailment or settlement occurs, it is mandatory that the current service cost and the net interest for the period after the re-measurement are determined using the assumptions used for the re-measurement. In addition, amendments have been included to clarify the effect of a plan amendment, curtailment or settlement on the requirements regarding the asset ceiling. The Company does not expect this amendment to have any significant impact on its financial statements.

Terms/rights attached to Equity Shares:

The Company has a single class of equity shares. Accordingly all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time subject to payment of dividend to preference shareholders. Dividends are paid in Indian Rupees. Dividend proposed by the board of directors, if any, is subject to the approval of the shareholders at the General Meeting, except in the case of interim dividend.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

Shares reserved for issue under options

Information relating to Five- Star Associate Stock Option Scheme, 2015 including the details of options issued, exercised and lapsed during the financial year and options outstanding at the end of the reporting period, is set out in note 42.

Five-Star Business Finance Limited

Notes forming part of the standalone financial statements for the year ended March 31, 2019 (continued)

(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

Particulars	As at March 31, 2019	As at March 31, 2018	As at April 1, 2017
34 Commitments			
Estimated amount of contracts remaining to be executed on capital account (net of capital advances) and not provided for	3.95	59.38	-
35 Contingent liabilities			
Claims against the Company not acknowledged as debt			
- Income tax related matters (excluding penalties and interest)	6.74	6.74	6.74
- Provident Fund (refer note below)			

In light of recent judgment of Honorable Supreme Court dated 28 February 2019 on the definition of "Basic Wages" under the Employees Provident Funds & Misc. Provisions Act, 1952 and based on the legal advice received, the Company has aligned the manner of computation of liability for Provident Fund effective the date of the order. There are significant uncertainties in determining the liability including, period of assessment, application for present and past employees and assessment of interest and penalties. The amount of the obligation therefore cannot be measured with sufficient reliability for past periods and hence disclosed as a contingent liability.

36 Disclosure under Micro, Small and Medium Enterprises Development Act, 2006

Under Micro, Small and Medium Enterprises Development Act, 2006, (MSMED) which came into force from 2 October 2006, certain disclosures are required to be made relating to Micro, Small and Medium enterprises. On the basis of the information and records available with management and confirmation sought from suppliers on registration with specified authority under MSMED, principal amount, interest accrued and remaining unpaid and interest paid during the year to such enterprise is NIL.

The principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting period

Principal	-	-	-
Interest	-	-	-
The amount of interest paid by the buyer in terms of section 16 of the Micro, Small and Medium Enterprises Development Act, 2006, along with the amount of the payment made to the supplier beyond the appointed day during each accounting year;	-	-	-
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the Micro, Small and Medium Enterprises Development Act, 2006;	-	-	-
The amount of interest accrued and remaining unpaid at the end of each accounting year; and	-	-	-
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006.	-	-	-

37 Deferred tax assets / (liability):

Basic earnings per share	70.16	31.29
Diluted earnings per share	68.58	30.69

40 Segment Information

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Company's Managing Director ('MD') to make decisions about resources to be allocated to the segments and assess their performance. The MD is considered to be the Chief Operating Decision Maker ('CODM') within the purview of Ind AS 108 Operating Segments.

The CODM considers the entire business of the Company on a holistic basis to make operating decisions and thus there are no segregated operating segments. The Company is primarily engaged in providing small business loans and loans for house renovations / extensions etc. The CODM of the Company reviews the operating results of the Company as a whole and therefore not more than one reportable segment is required to be disclosed by the Company as envisaged by Ind AS 108 Operating Segments. Accordingly, amounts appearing in these financial statements relates to small business loans and loans for house renovations / extensions etc.

The Company does not have any separate geographic segment other than India. As such there are no separate reportable segments as per IND AS 108 Operating Segments.

(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

41 Employee benefits - post employment benefit plans

Defined contribution plans

A The Company makes provident fund and employee state insurance scheme contributions which are defined contribution plans, for qualifying employees. Under the schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognised INR 223.91 lakhs (year ended March 31, 2018 - INR 132.54 lakhs) for provident fund contributions, and INR 134.46 lakhs (year ended March 31, 2018 - INR 81.65 lakhs) for employee state insurance scheme contributions in the statement of profit and loss. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

B Defined benefit plans

Gratuity

The Company operates a defined benefit plan (the Gratuity plan) covering eligible employees. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age/ resignation date.

The defined benefit plans expose the Company to risks such as Actuarial risk, Investment risk, Liquidity risk, Market risk, Legislative risk.

Actuarial risk: It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse salary growth experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption then the gratuity benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cash flow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption then the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

Investment risk: For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation

Liquidity risk: Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cash flows.

Market risk: Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in defined benefit obligation of the plan benefits and vice versa. This assumption depends on the yields on the government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

Legislative risk: Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act, 1972, thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the defined benefit obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

Funding

The Company does not have a funded gratuity scheme for its employees as at March 31, 2019. Gratuity provision has been made based on the actuarial valuation.

Reconciliation of net defined benefit (asset) liability

The following table shows a reconciliation from the opening balances to the closing balances for the net defined benefit asset (liability) and its components.

Particulars

Present value of obligations

Fair value of plan assets

Asset/ (Liability) recognised in the balance sheet

	As at	As at
	March 31, 2019	March 31, 2018
	247.34	138.74
	-	-
	(247.34)	(138.74)

Five-Star Business Finance Limited

Notes forming part of the standalone financial statements for the year ended March 31, 2019 (continued)

B Defined benefit plans (Continued)

Reconciliation of present value of defined benefit obligation

Balance at the beginning of the year	138.74	64.22
Benefits paid	(3.44)	-
Current service cost	51.76	19.11
Past service cost	-	10.18
Interest cost	10.19	4.43
Actuarial (gain)/loss recognized in other comprehensive income	50.09	40.80
changes in demographic assumptions	(38.61)	-
changes in financial assumptions	52.71	30.35
experience adjustments	35.99	10.45
Balance at the end of the year	247.34	138.74

Net defined benefit (asset) liability

247.34 **138.74**

Expense recognized in profit or loss

Current service cost	51.76	19.11
Interest cost	10.19	4.43
Past service (gain)/ loss	-	10.18
	61.95	33.73

Remeasurements recognized in other comprehensive income

Actuarial (gain) loss on defined benefit obligation	(50.09)	(40.80)
Return on plan assets excluding interest income	-	-
	(50.09)	(40.80)

Actuarial assumptions

Discount rate	6.88%	7.44%
Future salary growth	15.00%	10.00%
Attrition rate	25.00%	15.00%

Five year information

Gratuity	31-Mar-19	31-Mar-18	31-Mar-17	31-Mar-16	31-Mar-15
Defined benefit obligation	247.34	138.74	64.22	44.29	30.75
Fair value of plan assets	-	-	-	-	-
Deficit in plan	(247.34)	(138.74)	(64.22)	(44.29)	(30.75)
Experience adjustments on plan liabilities	(35.99)	(10.45)	(10.92)	(6.07)	(5.65)
Experience adjustments on plan assets	-	-	-	-	-

Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

Discount rate		
-1% increase	(11.56)	(8.19)
-1% decrease	12.64	9.16
Future salary growth		
-1% increase	11.50	8.41
-1% decrease	(10.79)	(7.77)
Attrition rate		
-1% increase	(6.13)	(2.23)
-1% decrease	6.55	2.37

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown

42 Share Based Payments

A Five-Star Associate Stock Option Scheme, 2015

The decision to introduce Five-Star Associate Stock Option Scheme, 2015 (hereinafter called "FIVE-STAR ASOP, 2015" or "The Scheme") was taken by the Board of Directors at the meeting held on September 18, 2015 and was approved by the shareholders of the Company at the Extra Ordinary General Meeting held on April 12, 2016. The total options issuable under the plan are upto 5,63,000 options. Nomination and Remuneration Committee constituted by the Board of Directors of the Company administers the plan. Under the plan, the participants are granted options which vest as per the schedule provided in the Grant Letter given to each of the participants. The time period for exercise of these options is defined in the Scheme document.

i Reconciliation of outstanding share options

	As at March 31, 2019		As at March 31, 2018	
	Weighted average exercise price per	Number of options	Weighted average exercise price per	Number of options
Outstanding at beginning of year	46.22	362,000	20.34	482,500
Forfeited during the year	-	-	-	-
Exercised during the year	61.15	43,900	10.20	188,500
Granted during the year	130.00	12,500	130.00	68,000
Outstanding as at end of year	50.03	330,600	46.22	362,000
Exercisable at March 31	21.75	116,400	10.00	8,000

The weighted average share price at the date of exercise of options exercised during the year ended March 31, 2019 is Rs.1326.89/- (March 31, 2018 : 674.40/-)

ii Expense recognised in the statement of profit and loss

	Year ended March 31, 2019	Year ended March 31, 2018
Total Expense	267.83	214.94

iii Measurement of fair values

The fair value of options have been estimated on the dates of each grant using the Black Scholes model. The various inputs considered in the pricing model for the stock options granted by the Company are as follows:

	As at March 31, 2019	As at March 31, 2018	As at April 1, 2017
Weighted average share price	698.00	653.49	146.65
Share price on Grant date	698.00	674.40	130-319
Exercise price	130.00	130.00	130.00
Fair value of options at grant date	595.47 - 620.03	215.86 - 594.95	122.19 - 242.19
Expected volatility	29.28% - 30.89%	27.09% - 31.08%	26.84% - 30.68%
Option term	3.54-7.54 years	3.54-7.54 years	3.54-7.54 years
Expected dividends	Nil	Nil	Nil
Risk free interest rate	6.70% - 6.75%	6.00% - 6.25%	6.75% - 7.00%
Weighted average remaining contractual life (in years)	6.2	6.28	5.5

Five-Star Business Finance Limited**Notes forming part of the standalone financial statements for the year ended March 31, 2019 (continued)****(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)****44 Capital**

The Company maintains an actively managed capital base to cover risks inherent in the business and is meeting the capital adequacy requirements of the regulator, Reserve Bank of India (RBI). The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by RBI.

The Company has complied in full with all its externally imposed capital requirements over the reporting period.

Capital management

The primary objectives of the Company's capital management policy is to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

i Net Debt to Equity Ratio

Consistent with the others in industry, the company monitors the capital on the basis of gearing ratio (Net debt divided by equity). Under the terms of the major borrowing facilities, the company is required to maintain the gearing ratio in line with the RBI guidelines or in a slightly more conservative manner. The actual gearing stipulated differs between the various lending agreements. The company has complied with this covenant through out the year.

	As at March 31, 2019	As at March 31, 2018	As at April 1, 2017
Equity	136,508.33	59,221.13	22,232.36
Debt	92,170.50	52,805.50	44,914.78
Cash and Cash equivalents	20,992.65	12,643.11	17,986.69
Net Debt	71,177.85	40,162.39	26,928.10
Net Debt to Equity Ratio	0.52	0.68	1.21

ii Regulatory capital

The company has to mandatorily comply with the capital adequacy requirements stipulated by Reserve Bank of India from time to time. Capital adequacy ratio or capital-to-risk weighted assets ratio (CRAR) is computed by dividing company's Tier I and Tier II capital by risk weighted assets.

Tier I capital comprised of share capital, share premium, retained earnings including current year profit and Tier II capital comprises of provision on standard assets. Risk weighted assets represents the weighted sum of company's credit exposures based on their risk.

	As at March 31, 2019	As at March 31, 2018	As at April 1, 2017
Tier I Capital	134,578.63	58,382.73	21,657.42
Tier II Capital	1,191.76	715.25	1,426.51
Total Capital	135,770.39	59,097.98	23,083.93
CRAR%	64.81	59.10	44.21
CRAR - Tier I Capital%	64.24	58.38	43.36
CRAR - Tier II Capital%	0.57	0.72	0.85
Amount of subordinated debt raised as Tier-II capital	-	-	-
Amount raised by issue of perpetual debt instruments	-	-	-

Tier 1 capital consists of shareholders' equity and retained earnings. Tier 2 Capital consists of general provision and loss reserve against standard assets (stage 1 and stage 2 assets). Tier 1 and Tier 2 has been reported on the basis of Ind AS financial information.

(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

46 Financial risk management objectives and policies

The Company's principal financial liabilities majorly comprise of borrowings from banks, debentures and trade payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's financial assets include loan and advances, cash and cash equivalents that derive directly from its operations.

The Company's activities expose it to a variety of financial risks, as listed below apart from various operating and business risks,

Market risk;
Credit risk; and
Liquidity risk

This note explains the sources of risks arising from financial instruments which the entity is exposed to and how the Company manages the risk.

Risk management framework

The Company's board of directors and risk council has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors and risk management council along with the top management are responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's risk management council oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

(i) Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates, interest rates and equity prices which will affect the Companies income or the value of holdings of financial instruments. The company does not have exposure to currency risk and security price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimising the

Interest rate risk

Interest rate risk primarily arises from borrowings with variable rates. The company's borrowings are carried at amortised cost. The borrowings with fixed rates are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The interest rate profile of the Company's interest bearing financial instruments is as follows:

	As at March 31, 2019	As at March 31, 2018	As at March 31, 2017
Fixed rate instruments			
Financial assets	206,462.21	108,066.88	60,980.65

46 Financial risk management objectives and policies (Continued)

(ii) Credit risk

Loans and advances

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's loans advances and other financial assets. The carrying amount of financial assets represents the maximum credit exposure. The company has Credit policy approved by the Board of Directors, which is subject to annual review. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

The Company has established a credit quality review process to provide early identification of possible changes in the creditworthiness of counterparties, including regular collateral revisions, as defined in the Credit policy. Counterparty limits are established by the use of a credit risk classification system, which assigns each counterparty a risk rating. The credit quality review process aims to allow the Company to assess the potential loss as a result of the risks to which it is exposed and take corrective actions.

The disclosure of maximum exposure to credit risk without taking into account any collateral held or other credit enhancements has not been provided for financial assets, as their carrying amount best represent the maximum exposure to credit risk. All the loans provided are secured against mortgage of land and/or building. The fair value of the collateral is determined on the guidelines prescribed in the collateral management policy as approved by the Board of Directors.

Impairment assessment - Expected credit loss ("ECL"):

An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. For the purposes of this analysis, the loan receivables are categorised into groups based on days past due. Each group is then assessed for impairment using the Expected Credit Loss (ECL) model as per the provisions of Ind AS 109 - financial instruments. The Company's impairment assessment and measurement approach is set out in this report. It should be read in conjunction with the Summary of significant accounting policies.

ECL on financial assets is an unbiased probability weighted amount based out of possible outcomes after considering risk of credit loss even if probability is low. ECL is calculated based on the following components:

- a. Marginal probability of default ("MPD")
- b. Loss given default ("LGD")
- c. Exposure at default ("EAD")
- d. Discount factor ("D")

Marginal probability of default:

PD is defined as the probability of whether borrowers will default on their obligations in the future. Historical PD is derived from the internal data which is calibrated with forward looking macroeconomic factors.

For computation of probability of default ("PD"), Vaseick Model was used to forecast the PD term structure over lifetime of loans. As per given long term PD and current macroeconomic conditions, conditional PD corresponding to current macroeconomic condition is estimated. The Company has worked out on PD based on the last six years historical data.

Marginal probability:

The PDs derived from the model, are the cumulative PDs, stating that the borrower can default in any of the given years, however to compute the loss for any given year, these cumulative PDs have to be converted to marginal PDs. Marginal PDs is probability that the obligor will default in a given year, conditional on it having survived till the end of the previous year.

Conditional marginal probability:

As per Ind AS 109, expected loss has to be calculated as an unbiased and probability-weighted amount for multiple scenarios.

The probability of default was calculated for 3 scenarios: best, worst and base. This weightage has been decided on best practices and expert judgement. Marginal conditional probability was calculated for all 3 possible scenarios and one conditional PD was arrived as conditional weighted probability.

46 Financial risk management objectives and policies (Continued)

Staging of loans:

Definition of default and cure

The Company considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the loan has remained overdue for a period greater than 90 days.

It is the Company's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when the loan becomes less than 90 days past due on its contractual obligations. Such cured loans are classified as Stage 1 or 2 depending upon the days past due after such cure has taken place.

As per Ind AS 109, Company assesses whether there is a significant increase in credit risk at the reporting date from the initial recognition. Company has staged the assets based on the Day past dues criteria and other market factors which significantly impacts the portfolio.

Days past dues status	Stage	Provisions
Current	Stage 1	12 Months Provision
1-30 Days	Stage 1	12 Months Provision
31-90 Days	Stage 2	Lifetime Provision
90+ Days	Stage 3	Lifetime Provision

Company's internal rating and PD estimation process

The Company's independent Credit Risk Department operates its internal rating models, in which customers are rated from Low to High using internal grades. The models incorporate both qualitative and quantitative information in addition to information specific to the borrower, utilise supplemental external information that could affect the borrower's behaviour.

Exposure at default

The exposure at default (EAD) represents the gross carrying amount of the financial instruments subject to the impairment calculation, addressing both the client's ability to increase its exposure while approaching default and potential early repayments too.

To calculate the EAD for a Stage 1 loan, the Company assesses the possible default events within 12 months for the calculation of the 12mECL. However, if a Stage 1 loan that is expected to default in the 12 months from the balance sheet date and is also expected to cure and subsequently default again, then all linked default events are taken into account.

The Company determines EADs by modelling the range of possible exposure outcomes at various points in time, corresponding the multiple scenarios. The Ind AS 109 PDs are then assigned to each economic scenario based on the outcome of models.

Loss given default

The credit risk assessment is based on a standardised LGD assessment framework that results in a certain LGD rate. These LGD rates take into account the expected EAD in comparison to the amount expected to be recovered or realised from any collateral held.

The Company segments its retail lending products into smaller homogeneous portfolios, based on key characteristics that are relevant to the estimation of future cash flows. The applied data is based on historically collected loss data and involves a wider set of transaction characteristics (e.g., product type, wider range of collateral types) as well as borrower characteristics.

Further recent data and forward-looking economic scenarios are used in order to determine the Ind AS 109 LGD rate for each group of financial instruments. When assessing forward-looking information, the expectation is based on multiple scenarios. Examples of key inputs involve changes in, collateral values including property prices for mortgages, commodity prices, payment status or other factors that are indicative of losses in the group.

Under Ind AS 109, LGD rates are estimated for the Stage 1, Stage 2, Stage 3 and POCI Ind AS 109 segment of each asset class. The inputs for these LGD rates are estimated and, where possible, calibrated through back testing against recent recoveries. These are repeated for each economic scenario as appropriate.

Discounting:

As per Ind AS 109, ECL is computed by estimating the timing of the expected credit shortfalls associated with the defaults and discounting them using effective interest rate.

Significant increase in credit risk

The Company continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12mECL or LTECL, the Company assesses whether there has been a significant increase in credit risk since initial recognition. The Company considers the credit risk to be directly proportional to the delinquency status i.e. days past due of the loan under consideration. No further adjustments are made in the PD.

When estimating ECLs on a collective basis for a group of similar assets the Company applies the same principles for assessing whether there has been a significant increase in credit risk since initial recognition.

Five-Star Business Finance Limited

Notes forming part of the standalone financial statements for the year ended March 31, 2019 (continued)

(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

46 Financial risk management objectives and policies (Continued)

Grouping financial assets measured on a collective basis

The Company calculates ECL on a collective basis for all asset classes.

The Company combines these exposure into smaller homogeneous portfolios, based on the characteristics of the loans, as described below:

- Geographic location
- Loan type
- Ticket size

ECL computation:

Conditional ECL at DPD pool level was computed with the following method:

Conditional ECL for year (yt) = EAD (yt) * conditional PD (yt) * LGD (yt) * discount factor (yt)

The calculation is based on provision matrix which considers actual historical data adjusted appropriately for the future expectations and probabilities. Proportion of expected credit loss provided for across the stage is summarised below:

	Provisions	As at March 31, 2019	As at March 31, 2018	As at March 31, 2017
Stage 1	12 month provision	0.14%	0.23%	0.2%
Stage 2	Life time provision	4.41%	4.09%	5.9%
Stage 3	Life time provision	22.88%	20.89%	13.5%

The loss rates are based on actual credit loss experience over past years. These loss rates are then adjusted appropriately to reflect differences between current and historical economic conditions and the Company's view of economic conditions over the expected lives of the loan receivables. Movement in provision of expected credit loss has been provided in below note.

Analysis of changes in the gross carrying amount and the corresponding ECL allowances:

Particulars	31-Mar-19				31-Mar-18			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total
Gross carrying amount opening balance	83,455.22	12,738.44	1,746.25	97,939.91	40,909.03	5,590.54	1,511.09	48,010.67

46 Financial risk management objectives and policies (Continued)**Analysis of inputs to the ECL model under multiple economic scenarios**

An overview of the approach to estimating ECLs is set out in Note 3.5 Summary of significant accounting policies. ECL on financial assets is an unbiased probability weighted amount based out of possible outcomes after considering risk of credit loss even if probability is low. ECL is calculated based on the following components:

The following tables outline the impact of multiple scenarios on the allowance based on macro-economic factors considered:

ECL Scenario	As at March 31, 2019	As at March 31, 2018
Best case	1,297.60	924.19
Base case	1,554.85	1,056.90
Worst case	1,921.44	1,232.50

Analysis of credit concentration risks

The Company's concentrations of risk are managed by counterparty and geography. The maximum credit exposure to any individual client or counterparty as of March 31, 2019 was INR 107.77 Lakhs (March 31, 2018: INR 285.12 Lakhs).

The following table shows the risk concentration of loan portfolio by geography.

Geography	As at March 31, 2019	As at March 31, 2018	As at March 31, 2017
Tamil Nadu	97,074.37	53,266.00	33,243.59
Karnataka	11,273.17	4,026.26	1,108.81
Andhra Pradesh	62,278.32	30,405.97	12,528.11
Telangana	34,402.67	10,241.68	1,130.15
Others	2,320.36	-	-
	207,348.89	97,939.91	48,010.66

Cash and bank balances

The Company held cash and cash equivalents with credit worthy banks and financial institutions as at the reporting dates which has been measured on the 12-month expected loss basis. The credit worthiness of such banks and financial institutions are evaluated by the management on an ongoing basis and is considered to be good with low credit risk.

Other financial assets

This balance is primarily constituted by security deposits and advance to employees. The Company does not expect any losses from non-performance by these counter-parties.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company is bound to comply with the Asset Liability Management guidelines issued by Reserve Bank of India. The company has Asset Liability Management policy approved by the board and has constituted Asset Liability Committee to oversee the liquidity risk management function of the company. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company's principal sources of liquidity are borrowings, cash and cash equivalents and the cash flow that is generated from operations.

The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived. In addition, the Company maintains the following undrawn borrowing facilities :

	As at March 31, 2019	As at March 31, 2018	As at March 31, 2017
Cash Credit facilities	1,836.93	770.32	528.50
Others	57,000.00	20,000.00	400.00
Total	58,836.93	20,770.32	928.50

Other Financial assets	283.68	283.68	-	-	-
Total	228,528.26	49,501.00	32,100.11	101,082.05	45,845.10

The table below provides details regarding the contractual maturities of financial liabilities and assets including interest as at March 31, 2018:

	Carrying amount	Less than 1 year	1-2 years	2-5 years	More than 5 years
Financial Liabilities					
Debt Securities	19,322.09	1,213.42	4,284.50	13,824.17	-
Borrowings (Other than Debt Securities)	33,483.42	14,404.49	9,604.79	9,474.15	-
Other payables	221.10	221.10	-	-	-
Other financial liabilities	440.09	440.09	-	-	-
Total	53,466.69	16,279.10	13,889.28	23,298.32	-
Financial Assets					
Cash and cash equivalents	12,643.11	12,643.11	-	-	-
Bank Balances other than cash and cash equivalents	7.98	7.98	-	-	-
Loans	96,859.91	20,180.15	16,592.38	45,290.36	14,797.02
Investments	1,500.00	-	-	-	1,500.00
Other Financial assets	269.19	269.19	-	-	-
Total	111,280.20	33,100.43	16,592.38	45,290.36	16,297.02

The table below provides details regarding the contractual maturities of financial liabilities and assets including interest as at March 31, 2017:

	Carrying amount	Less than 1 year	1-2 years	2-5 years	More than 5 years
Financial Liabilities					
Debt Securities	19,078.05	2,686.93	1,225.85	15,165.27	-
Borrowings (Other than Debt Securities)	25,836.73	8,928.93	5,973.87	10,933.94	-
Other payables	109.26	109.26	-	-	-
Other financial liabilities	380.01	380.01	-	-	-
Total	45,404.05	12,105.12	7,199.72	26,099.21	-
Financial Assets					
Cash and cash equivalents	17,986.69	17,986.69	-	-	-
Bank Balances other than cash and cash equivalents	56.64	6.64	50.00	-	-
Loans	47,380.65	9,216.14	9,456.00	23,815.64	4,892.87
Investments	1,500.00	-	-	-	1,500.00
Other Financial assets	190.30	190.30	-	-	-
Total	67,114.28	27,399.77	9,506.00	23,815.64	6,392.87

The amounts disclosed in the table are contractual undiscounted cash flows. Balances due within a year equal their carrying amounts as impact of discounting is not significant. The borrowings and debt securities carry covenants, a future breach of same may require the company to repay the liability earlier than indicated in the above table.

47 Explanation of transition to Ind AS

As stated in Note 2A, these are the Company's first financial statements prepared in accordance with Ind AS. For the year ended March 31, 2018, the Company had prepared its financial statements in accordance with Companies (Accounting Standards) Rules, 2014 (as amended), notified under Section 133 of the Act and other relevant provisions of the Act ('previous GAAP').

The accounting policies set out in Note 3 have been applied in preparing these financial statements for the year ended March 31, 2019 including the comparative information for the year ended March 31, 2018 and the opening Ind AS balance sheet on the date of transition i.e. April 1, 2017.

In preparing its Ind AS balance sheet as at April 1, 2017 and in presenting the comparative information for the year ended March 31, 2018, the Company has adjusted amounts reported previously in financial statements prepared in accordance with previous GAAP. This note explains the principal adjustments made by the Company in restating its financial statements prepared in accordance with previous GAAP, and how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

Optional exemptions availed and mandatory exceptions

In preparing these financial statements, the Company has applied the below mentioned optional exemptions and mandatory exceptions.

A. Optional exemptions availed

i. Deemed cost for Property plant and equipment and Intangible assets

As per Ind AS 101 an entity may elect to:

- (i) measure an item of property, plant and equipment at the date of transition at its fair value and use that fair value as its deemed cost at that
- (ii) use a previous GAAP revaluation of an item of property, plant and equipment at or before the date of transition as deemed cost at the date of the revaluation, provided the revaluation was, at the date of the revaluation, broadly comparable to:
 - fair value;
 - or cost or depreciated cost under Ind AS adjusted to reflect, for example, changes in a general or specific price index.

The elections under (i) and (ii) above are also available for intangible assets that meets the recognition criteria in Ind AS 38, Intangible Assets, (including reliable measurement of original cost); and criteria in Ind AS 38 for revaluation (including the existence of an active market).

(iii) use carrying values of property, plant and equipment, intangible assets and investment properties as on the date of transition to Ind AS (which are measured in accordance with previous GAAP and after making adjustments relating to decommissioning liabilities prescribed under Ind AS 101) if there has been no change in its functional currency on the date of transition.

As permitted by Ind AS 101, the Company has elected to continue with the carrying values under previous GAAP for all the items of property, plant and equipment. The same election has been made in respect of intangible also.

(ii) Investment in subsidiary

Ind-AS 101 allows a first-time adopter to use a deemed cost when measuring an investment in a subsidiary in the separate opening statement of financial position. This deemed cost can be determined using either fair value at the date of transition to Ind-AS or a previous GAAP carrying amount at that date. A first-time adopter is able to choose whether to use the deemed cost exemption on an investment-by-investment basis for its subsidiary.

Accordingly, the Company has elected to avail the exemption and use the previous GAAP carrying value as deemed cost.

B. Mandatory exceptions

i. Estimates

As per Ind AS 101, an entity's estimates in accordance with Ind AS at the date of transition to Ind AS at the end of the comparative period presented in the entity's first Ind AS financial statements, as the case may be, should be consistent with estimates made for the same date in accordance with the previous GAAP unless there is objective evidence that those estimates were in error. However, the estimates should be adjusted to reflect any differences in accounting policies.

As per Ind AS 101, where application of Ind AS requires an entity to make certain estimates that were not required under previous GAAP, those estimates should be made to reflect conditions that existed at the date of transition (for preparing opening Ind AS balance sheet) or at the end of the comparative period (for presenting comparative information as per Ind AS).

The Company's estimates under Ind AS are consistent with the above requirement. Key estimates considered in preparation of the financial statements that were not required under the previous GAAP are listed below:

- Impairment of financial assets based on the expected credit loss model.

Five-Star Business Finance Limited

Notes forming part of the standalone financial statements for the year ended March 31, 2019 (continued)

(All amounts are in Indian Rupees in lakhs, except share data and stated otherwise)

B. Mandatory exceptions (Continued)

ii. Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortized cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable.

Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition.

iii. Impairment of financial assets

The Company being NBFC company is required to assess the impairment of financial assets based upon the new model i.e. ECL instead of rule based guidance (RBI Prudential Norms) as prevailed under previous GAAP.

Accordingly, the Company has applied the impairment requirement of Ind-AS 109 on all financial assets recognised as per Ind-AS 109 retrospectively except:

1. The Company has sought to approximate the credit risk on initial recognition by considering all reasonable and supportable information that is available without undue cost or effort.
2. The Company has determined whether the financial asset is having low credit risk, as specified in Ind-AS 109, and whether there is a significant increase in credit risk since initial recognition of financial assets by applying rebuttable presumption of 30 days past due.
3. If the Company is unable to determine whether there is a significant increase in credit risk since initial recognition of a financial asset, without involving undue cost or effort, the Company shall recognise a loss amount equal to life time expected losses at each reporting date till the financial asset is derecognised.

Accordingly, the Company has developed ECL model for testing of impairment of loans and advances.

47 Explanation of transition to Ind AS (Continued)

Notes to the reconciliations

A. Impact on recognition of processing fee on financial assets under effective interest rate

On transition to Ind AS, the Company has recognised processing fee income under effective interest rate as required by Ind AS 109. Consequently, Unamortised processing fee has been recognised with corresponding impact in retained earnings on the date of transition and for the year ended March 31, 2018

Loans at amortised cost

Based on Ind AS 109, financial assets in the form of loans have been accounted at amortised cost using effective interest rate method and accordingly, upfront fee and transaction costs have been recognised using the effective interest rate method and recorded under interest income in the statement of profit and loss account and unamortised portion netted off against the loans. Under previous GAAP, upfront fee collected from customers was recognised in the income statement on a upfront basis and disclosed under other operating income.

B Recognition of suspended interest income (net)

On transition to Ind AS, the Company has recognised impairment loss on loans measured at amortised cost based on the expected credit loss model as required by Ind AS 109. Consequently, the suspended interest income pertaining to stage 3 assets, which was hitherto derecognised under previous GAAP have been added to the loan assets with a corresponding increase in retained earnings on the date of transition.

C Impact of recognition of processing fee on borrowings under effective interest rate

On transition to Ind AS, the Company has recognised the processing fee paid on borrowings under effective interest rate as required by Ind AS 109. Consequently, unamortised processing fee has been recognised with corresponding impact in retained earnings on the date of transition and for the year ended March 31, 2018 and unamortised portion being netted off against the borrowings.

Borrowings at amortised cost

Based on Ind AS 109, financial liabilities in the form of borrowings have been accounted at amortised cost using effective interest rate method. Accordingly, upfront transaction costs have been included in the effective interest rate computations and disclosed as interest cost in the statement of profit and loss. Under previous GAAP, these costs were charged to the statement of profit and loss upon incurrence of the same.

D Impact of application of Expected Credit Loss method for impairment allowance on receivables under financing activities

On transition to Ind AS, the Company has recognised impairment loss on receivables from financing activities measured at amortised cost based on the expected credit loss model as required by Ind AS 109. Consequently, receivables from financing activities have been adjusted with a corresponding decrease in retained earnings on the date of transition and there has been incremental provision for the year ended March 31, 2018. The provision for standard assets and provision for non-performing assets were disclosed as provisions in the previous GAAP. Under Ind AS, the expected credit loss has been disclosed as a deduction from loans to customers.

The impact arising from the change is summarized as follows:

	Year ended March 31, 2018	
Statement of profit and loss		
Impact of application of Expected Credit Loss method for impairment allowance on receivables under financing activities		130.89
Suspended interest recognised in previous year written off		(115.34)
Adjustment before income tax		15.55
	April 1, 2017	March 31, 2018
Balance sheet		
Impact on application of Expected Credit Loss method	(243.16)	(112.27)
Adjustment to retained earnings	(243.16)	(112.27)
Adjustment to Statement of profit and loss		(130.89)

47 Explanation of transition to Ind AS (Continued)

Notes to the reconciliations

E Share based payment

The Company granted equity-settled share-based payments to certain employees. The Company accounted for these share-based payment arrangements based on accounting standards as per previous GAAP i.e., on a intrinsic value method. Under Ind AS, the related liability has been adjusted to reflect the fair value of the outstanding equity-settled share-based payments and relevant reserve under "Other equity" - share options outstanding account has been recorded.

F Impact of rent straight lining

Payments made under operating leases are generally recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

G Remeasurement of defined benefit liability / asset

Under the previous GAAP, actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability was forming part of the profit or loss for the year. However under Ind AS, such actuarial gains and losses are recognised in other comprehensive income. However, there is no major change on the total comprehensive income and total equity as at April 1, 2017 and March 31, 2018.

Other comprehensive income

Under previous GAAP, the Company did not present other comprehensive income (OCI) separately. Hence, it has reconciled previous GAAP profit or loss to profit or loss as per IndAS. Further, previous GAAP profit or loss is reconciled to total comprehensive income as per Ind AS.

H Deferred tax

Previous GAAP requires deferred tax accounting using the profit and loss approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences arising on account of transition adjustments. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or a separate component of equity.
